Planted Area: 200 acres
Elevation: 210-375 feet
Aspect: Southeast
Slope: 4.9%
Soils: Cornelius, Laurelwood, Helvetia, Cascade, Woodburn

Demeter Certified Biodynamic®

Certified Organic by Stellar Certification Services

Planted in 1982, Montinore Estate is a 200-acre Demeter Certified Biodynamic® and Stellar Certified Organic estate that lies at the northern end of the Willamette Valley appellation and along the east-facing slope of the Coastal Range foothills in Oregon. This is an ideal site for the seven grape varieties we grow here: Pinot Noir, Pinot Gris, Gewürztraminer, Riesling, Müller-Thurgau, Teroldego and Lagrein.

In 2008, we received Biodynamic® certification from Demeter and Organic certification by Stellar. Our close attention to each step of the grape-growing process is rooted in the belief that exceptional wine is born of a sustained marriage of soil, climate and artful stewardship.
